\$PCON Token Utility

FIBOT SIGNAL is the newest of artificial intelligence developed to guide, step by step, all traders no matter what level of trading you have. As traders ourselves, we know that to be able to do a technical analysis, you have to know what is a resistance and what is a support, as well as know how to read chart patterns. However, a technical analysis known as Fibonacci analysis.

The Fibonacci analysis consists in the utility of quadratic equations, linear regressions and other fundamentals and mathematical technics that help us analyze our coin.

In a matter of seconds, FIBOT will do that for you, as well as give you signals, entry or sell points, so you can execute your trading safer.

Also, every good trader know that a well-done technical analysis depends on the fundamentals and a good research. Sometimes, it could become difficult to search good quality information, but hey, that's why we created FIBOT, it does it for you, because it will have a virtual assistant that will be delivering you recent news so you can be aware always.

So yes, FIBOT covers you in all aspects.
